VILLAGE PAYS CURRENT BILLS IN COLD CASH

With \$3,000 on Hand, Ar-
lington Hts. Meets Bills
Except Public Serv.

Under the present arrange-
ment, lists of bills allowed by the
village board are not being pub-
lished. If you think they should
be, express your opinion to May-
or Flentie or any member of the
board.

Economy and fortunate collec-
tions are enabling the village of
Arlington Heights to meet in cash
the entire payroll and bills, total-
ing over \$2,700, which were ap-
proved Monday night. The cash
balance as of August 1 was over
\$3,100. In order to leave a com-
fortable balance in the treasury
the bills of the Public Service Co.,
totaling nearly \$700 will not be
paid at this time. This is the first
time in many months that the fi-
nance committee could make such
an announcement and it brought a
smile to the face of every board
member—why shouldn't it, as
among the bills were the quarterly
payroll of the board, which ranged
from \$50 for the aldermen to \$90
for the mayor.

The month of July was a banner
collection month for the village,
the receipts being nearly \$5,000,
\$1,600 being credited to the general
fund; \$2,650 to the water fund and
\$650 to the vehicle fund. It is
with loans from the two latter
funds that the village is able to
operate. On August 1, \$8,165 had
been loaned to the general fund.
General obligation bonds and in-
terest past due, amount to \$6,450.

Just as Chairman O. G. Barrett
of the water committee gets the
water delinquency cut down to al-
most nothing, a new quarter comes
along and he has to do the job all
over again. He reported that the
list of delinquents upon the first
of the month was nearly \$1,000,
which includes all water accounts,
including those that are being
worked off. Five day notices have
been mailed out.

Chief Skoog asked the board
what disposition he should make
regarding wholesale beer peddlers
who refuse to pay their licenses,
on the claim that they are deliver-
ing only phone orders. The mat-
ter was referred to Attorney Thal.
Mr. Skoog expressed his belief that
he would be able to collect the ma-
jority of such licenses.

Joe Hipp was present and ap-
pealed to the board that he thought
it was unfair to ask him to pay a
vehicle license when he is not giv-
ing a proper roadway from his prop-
erty. He admitted that Chief Skoog
had the right to insist that he pay
a license, but took the stand that
his collection on the part of the
village from him was unjust. "I
am paying very high taxes, but get
little returns," said Mr. Hipp. He
was informed that the village could
do nothing for him.

Application of C. J. Koch for
beer license was referred to the
committee.

Fines totaling \$57 from Police
Magistrate Meyer and Justice
Klehm for the past two weeks were
reported by the Police committee.
Streets and Drainage committee
reported repairs on roads.

The sewer committee was in-
structed to consult with interested
property owners on South Walnut
street from South street to Grove
street, relative to the plan of end-
ing drainage nuisance there by the
village furnishing the tile and the
property owners doing the work.

A letter of thanks was read from
the American Legion for use of
streets for the carnival.

The mayor reported the receipt
of a check for \$168.01 from the
National Tea Co., representing
amount of unclaimed refunds on
expired 3% sales tax. The mayor
stated that he did not want to
accept the responsibility for turn-
ing the money over to any particu-
lar organization. On motion he
was directed to hold the check un-
til its distribution should be or-
dered by the board. A letter of
thanks was ordered written to the
National Tea Co.

Two bids for auditing the books
of the treasurer were read. Albert
F. Roderick of Mt. Prospect, pre-
sented three plans varying in cost
from \$200 to \$650. E. F. Laurin
made a bid of \$15 a day and not to
exceed \$180 for an audit that would
be accepted by the bonding com-
panies who require such a report
before renewing bonds. The bid of
Mr. Laurin was accepted.

Request for change of light from
old Northwest highway and Found-
ry Road to new cut off, was refer-
red to committee.

Chief Skoog reported that num-
erous accidents had occurred on
the Northwest highway, near to
Arlington Seating Co., due to a
deep ditch, the latest being a large
truck. A motion was passed ask-
ing the state to install a guard

Adam Duthorn, Gas Station Owner, Is Victim of Bandits

Adam Duthorn, proprietor of a
gasoline station at Arlington
Heights and Algonquin roads, was
robbed of about \$257 and his shot
gun by two bandits about 5:45
o'clock last Friday morning. The
party drove up, but seeing another
customer there, drove away, and
then came back. They asked for 5
gallons of gas, then handed him a
\$5 bill to be changed. Going back
into his place where he had some
money hid, to get change for the
bill, he was surprised with a gun
pointed at him, bound, gagged, and
ordered to make no sound lest he be
shot. Ransacking the building, the
robbers found money hid in five
places. Just before they left, one
of the robbers cut the rope, releas-
ing Mr. Duthorn, and were gone
long before police could be got to
the scene.

The coin box of the telephone
booth in the Mount Prospect depot
was stolen some time between the
open hours Saturday and Sunday.

HEARING ON WIDENING OF STATE ROAD

County Comr. Byrd Asks
Desire of Property Own-
ers Along the Highway

Homer J. Byrd, county commis-
sioner accompanied by a repre-
sentative of the County Highway De-
partment will be present at the
public meeting in the Arlington
Heights village hall next Monday
evening, when a definite decision
will be made in reference to the
widening of State Road to forty
feet for its entire length, from
Rand road to Center road. Mr.
Byrd told a representative of the
Herald this week, that it is a pro-
ject that he sponsored some time
ago. In setting the wheels in mo-
tion for the repaving of that high-
way and its widening, he was mak-
ing good on a promise he had given
to the people of Arlington Heights.
The repaving of the road was done
by the county without expense to
property owners a year ago. It has
now reached a point where either
the widening project must be drop-
ped or completed.

The county has so notified Mayor
Flentie and the meeting called by
the village board for Monday eve-
ning is to learn the desires of the
adjoining property owners. Mr.
Byrd has made it plain that it is
up to the people themselves and he
will recommend action in accord-
ance to the decision of that meet-
ing.

Mr. Byrd is chairman of the
road and bridge committee and
placed the improvement upon the
1932 and 1933 program of the
county highway department.

Alderman Krause on Vacation in North Lakes

Alderman Walter Krause is tak-
ing a ten days vacation, spending
it in the northern part of Minne-
sota, up where the muskies "grow."
He is accompanied by Mr. and Mrs.
Ed. Kehe. No reports of big fish
have reached home as yet, but
Walter is not much of a corres-
pondent and is probably saving his
stories to tell when he returns home.

The board informally discussed
vacations for the police and pump-
ing station employees. They will
be allowed a week each with the
approval of the chairman of the re-
spective committees under whose
direction they are employed.

A number of the property own-
ers residing on North State road
appeared at the Arlington Heights
board meeting Monday night re-
questing that the village ask the
county to proceed with the widen-
ing of that thoroughfare to forty
feet. The mayor took the stand
that he would not consent to the
cutting of the many fine trees upon
the west side of that street before
he had learned the wishes of the
interested property owners. Mr.
Flentie asked that a meeting be
called for Monday evening, August
14, to which the property owners
are to be invited.

As the improvement will not ef-
fect any trees south of the rail-
road track, it is presumed that
property owners of South State
road are in favor of the improve-
ment.

Law Suit Awaiting Trial
On inquiry of the board Attor-
ney Thal stated that there was
nothing more that could be done at
this time in the suit against the
bonding companies on the Boite
bond. The case will come to trial
in the regular course of the court.

OUTLINE TWO DAY CENTENNIAL CELEBRATION

Aug. 19 and 20 to be Big
Days in Elk Grove;
Free Transportation

A parade, band concert, races for
young and old, ball games and
speeches will feature the two day
program arranged for the celebra-
tion of the township's one hundredth
birthday which will be celebrated
by the entire township at Shayne's
grove on the 19th and 20th of this
month.

According to tentative plans, ev-
eryone will meet at the village hall
at one o'clock Saturday, where the
parade will be formed, and from
there will start at two o'clock for
Shayne's Grove via Elmhurst Road
to Higgins Road and thence to the
grounds at the intersection of Hig-
gins and State Roads. A specially
chartered bus will carry those hav-
ing no other means of transporta-
tion to the grounds, and will oper-
ate on an hourly schedule leaving
from the Lutheran school on the
North Western street and at the
corner of Lincoln street and Elm-
hurst road.

Games Arranged For All

Arriving at the grounds, a short
address of welcome will be given
and games for the children will
start at once, followed by a ball
game between two teams in the
softball league. After the ball game
becomes history, games for the old-
er children and adults will be stag-
ed. After a picnic supper dancing
will start in the pavilion to the cap-
tivating strains of Heine's orchestra.

On the second day of the celebra-
tion, a second ball game will be
played between two teams yet to
be decided upon following which
will be given a program of speak-
ers arranged by Commissioner
Busse. During the remainder of the
afternoon the band will give a
concert, the oldest residents will be
honored and a program of contests
such as a tug of war and horse
shoe pitching will be occupying the
rest of the day.

During the two day event, vari-
ous attractions such as a merry-
go-round, Ferris wheel and tilt-a-
whirl have been exclusively obtain-
ed for the benefit of the celebrants.
Numerous games of chance will be
run by various organizations. Re-
freshments will be well provided
in the form of soft drinks, ice
cream and beer.

Present plans for the exhibit of
relics identified with the early
growth of Elk Grove Township
promise to be a prominent feature
of the Centennial according to re-
ports from Chairman Herman
Schwabe. Among the exhibits al-
ready obtained for display are old
firearms, oxen yoke, and furniture.
An extensive display of Indian
relics is also proposed. It is urged
that all exhibitors submit their ar-
ticles by August 15, by reporting
the same to Mr. Schwabe or to the
members of his committee, which
are as follows: Mrs. W. C. Willie,
Mrs. H. F. Mochler, Julius F.
Precht, Conrad Willis, August
Deeke, Adolph Busse, Mrs. Edward
Pohlman and Mrs. Paul Holste.

INCREASE FIRE PROTECTION OF THREE TOWNS

Arlington Heights, Pala-
tine and Barrington
Agree to Exchange

Announcement was made this
week by Wesley R. Comfort, Pala-
tine fire chief, that an acceptance
had been received from the fire de-
partments of Arlington Heights
and Barrington for an exchange of
fire equipment in case of an emer-
gency, which would triple the fire
fighting equipment that would be
available at Palatine and double
the available apparatus at either
of those towns. It is expected that
this arrangement will be the basis
upon which a lower fire insurance
rate will be asked.

The plan was originally proposed
by Chief Comfort and after procur-
ing the consent of the Palatine
board, the matter was presented to
the fire departments of the two
neighboring towns. In case of an
emergency or large fire at Palatine,
Barrington and Arlington Heights
each agree to send their pumper
and half of their fire company. In
return, Palatine agrees to reciprocate.
It may be years before there
would be such a need but the plan
gives all three villages added pro-
tection at no cost of upkeep.

Sales Tax Returns Coming Due, Plain And Fancy Penalties

Local merchants are confronted
with the necessity of compiling
their first returns on the sales tax
to the state department of finance.
Blanks in Arlington Heights have
been supplied from the office of the
Village Treasurer, Mr. Wm. F.
Meyer, assistant treasurer, being
also the secretary of the Chamber
of Commerce. This first returns
covering July business must be
made not later than Tuesday next,
Aug. 15. Similar returns must be
made for the next two years on or
before the 15th of each month—
unless the law is found unconstitutional,
suits being pushed by mer-
chants toward a decision.

The penalty for an incorrect re-
turn is 5 per cent of the amount
of the deficiency, and an additional
5 per cent if a proper return is not
made within 10 days after notice.
For failure to make return, the
penalty is 25 per cent of the tax
or for failure to pay the tax when
filing a return.

For failure to keep books and re-
cords, as required for inspection, the
fine is not less than \$25 or more
than \$5,000; or imprisonment for
not more than six months, or both
fine and imprisonment.

Some of the information the
state department of finance wants
to know about a firm's business is
whether a partnership, corporation
or individual enterprise; when busi-
ness was begun, total of open ac-
counts, promissory notes, install-
ment contracts and other types of
charge or time sales due on June
30; receipts of sales subject to tax;
receipts from charge or time sales
subject to tax; total receipts sub-
ject to tax, and the amount of the
tax. An affidavit concerning the
veracity of the return is required.

RECEIVER IS IN CHARGE OF PALATINE ST.

H. E. Robertson Repre-
sents Wm. L. O'Connell;
Start Liquidation

All hopes for the reopening of
the State Bank of Palatine under
the control of present stockholders
and officers ended this week with
the placing of that institution un-
der the control of Wm. L. O'Con-
nell, who is general receiver of
many banks in the state. The Pa-
latine bank is under the direct
charge of H. E. Robertson, who is
receiver of the Park Ridge State
Bank and two banks at Humboldt
Park. Mr. Robertson appeared mor-
ning with a number of assistants in
order to check over the assets of
the institution. After the liquidation
starts, Mr. Robertson will only be
there at stated intervals, while a
clerk from Chicago and Miss Gus-
tie Olms will handle the clerical
work.

The large amount of public
funds, over \$65,000, in the State
Bank of Palatine prevented its re-
opening. Members of the village
board who gladly waived their per-
sonal funds, were reluctant about
waiving public funds under their
care. The same was true in part
regarding other public money. Over
\$20,000 of tax money was on de-
posit and is a preferred claim. Col-
lector Wm. Heims will make an ef-
fort to have this money released
as soon as possible. Fortunately
he had only paid out to individual
treasurers \$5,000 of the amount he
had collected at the time of the last
moratorium. Money so paid and
on deposit to the credit of taxing
bodies, is not treated as a prefer-
red claim and must await future
bank dividends.

Mrs. N. Weiszman Is Passed Away

Mrs. Nikolaus Weiszmann, 550
W. Campbell street, passed away
at her home at 2:35 a. m. Wednes-
day morning, following an illness
since last fall. Funeral services
will be at 9 o'clock this morning
(Friday) at the house, and 9:30 at
St. James Catholic church, the Rev.
J. T. Wagner to officiate. Burial
will be in Ridgewood cemetery at
Milwaukee and Central roads.

Marguerita Buxbaum was born
of German parentage in Hungary,
July 10, 1882. She was married to
Mr. Nikolaus Weiszmann in Chi-
cago, June 14, 1906. The Weisz-
manns came to live in Arlington
Heights in 1919. Three years ago
they had the privilege of making
a summer trip to Hungary, re-
newing family acquaintances, and
visiting interesting scenes, espe-
cially in the German colony in Hun-
gary.

Mrs. Weiszmann leaves to mourn
a sister and brother in Hungary
and second cousin in Chicago. Mr.
Weiszmann also has few relatives
in this country, a brother in North-
brook and cousin in Chicago.

Herbert H. Meyer Funeral is Today St. Peter Church

Funeral services for Herbert
Henry Meyer, son of Mr. and Mrs.
George W. Meyer of Arlington
Heights, will be held this afternoon
(Friday), at 1:30 at the home of
his parents at 735 N. Dunton
street; thence to St. Peter Ev-
angelical Lutheran church at 2 o'clock. Rev.
C. M. Noack and Rev. H. C. Fricke
are to officiate. Mr. William Lad-
wig is to be the soloist. Mr. Wal-
ter Karstens has charge of ar-
rangements. Burial will be in St.
Peter's cemetery.

The young man passed away
Tuesday, Aug. 8, at St. Joseph's
hospital in Elgin, to which he had
been taken Saturday, Aug. 5, as
his long illness of 14 years became
more grave.

He leaves to mourn his bereaved
parents, and three brothers, Ralph,
Richard and George, Jr. He was
born Oct. 6, 1910, in Arlington
Heights, was baptized by the Rev.
Noack, and confirmed by Rev.
Noack on April 5, 1925.

PALATINE BD. TALKS PLAIN TO BEER DEALERS

Must Obey Ordinance Or
Lose Their Licenses

Mayor Godknecht of the Pala-
tine village board said some very
plain things Monday night regard-
ing a local tavern, which is report-
ed to have remained open last Sat-
urday evening until five a. m. Mr.
Godknecht stated that the beer or-
dinance and all ordinances of the
village must be obeyed and he in-
structed the police to enforce them.
Alderman Schmidt took the same
stand and was equally emphatic in
his statements.

A protest similar to the one made
before Arlington Heights board the
same evening, was made by an auto
owner who protested against pay-
ment of vehicle tax when the street
in front of his property was not
kept in good condition. In Pala-
tine as in Arlington Heights, the
matter was referred to the com-
mittee.

The tax levy ordinance totaling
\$22,000 was passed. The presi-
dent was instructed to use the
funds received from the National
Tea Co. to pay outstanding bills
of the local relief commission, caus-
ed by its funds being tied up in
a closed bank.

The financial situation of the
village was thoroughly discussed.
The definite closing of the State
Bank with over \$25,000 of village
funds, has made it all the more
acute. An effort will be made to
secure the release of \$5,000 in gen-
eral tax money held by the county
treasurer.

An amendment to the water or-
dinance is being prepared, making
owners of property responsible for
unpaid water bills.

Lillian Mitzlaff To Introduce Voco Study Plan in Arlington Hts.

Mrs. Lillian Mitzlaff has just
completed a course in the Voco
study plan under Dr. Charles Nor-
man Granville and has decided to
adopt it in her teaching. The Voco
study plan was published a little
over a year ago. This new work
has for its object the teaching of
singing principles to groups, or
classes, the idea being to give a
number of people at the same time
the instruction at a very moderate
price that a private pupil would
receive. The Voco method cannot
be too highly recommended for
choirs, choral societies, and all
groups, who are interested in per-
fecting themselves in tone, breath-
ing and diction. The theory is en-
dorsed and supported by our lead-
ing authorities on music education.

Opposition Group of Milk Producers Meet in Palatine

A meeting was held in Seip's
Auditorium in Palatine Wednesday
night, called by certain dairymen
not members of the Pure Milk As-
sociation and seeking to further a
movement and organization oppo-
sed to the regular organization.
Although over 100 were pres-
ent, little was done at the meeting
other than to secure signatures to
statements intended to be sent to
Washington expressing opposition
to the present trade agreement and
its administration. A member of
the Pure Milk Association who was
present, states that as near as he
can find out, what is back of the
opposition movement, is the de-
sire of certain ambitious individuals
to obtain power and office.

SNAKES INVADE FOR. PRESERVE KILL RATTLES

Com. Byrd to Ask Board
to Put Bounty on
Reptiles

The appearance of rattle snakes
in the county forest preserve, north
of Dundee road in Wheeling town-
ship, led to an organized hunt
Tuesday. Those participating
were County Commissioner Homer
J. Byrd, Geo. Oleese, John Oleese
and Renald Smith, an adjoining
farmer who has lost a cow on ac-
count of the rattlers. It is report-
ed that a boy scout camping in
that vicinity, recently lost his life
after being bitten. He was taken
to a Chicago hospital instead of re-
ceiving first aid upon the ground.
Mr. Byrd and his party found
three snakes and captured two of
them alive which will be studied for
clues to the reported influx of rat-
tlers into the northern end of the
preserve. The hunt was organized
on complaint of Renald Smith, a
farmer near Wheeling, who lost a
cow by snake bite.

Act to Protect Bathers
"This condition is serious," Com-
missioner Byrd said after the hunt.
"I propose to ask the county board
to offer a bounty on each rattler
captured or killed in the forest
preserve. None of the snakes has
been reported south of Dundee
road and we must protect the bath-
ers who swim at the dams south
of this point."

It was suggested by the commis-
sioner that the snakes may have
been washed into the district from
rattlesnake country to the north in
the floods of last spring.

Another naturalist pointed out
that the increase in rattlers might
be traced to the fact that campers
have killed the bullsnakes of the
neighborhood. The bullsnake,
harmless to humans, is a natural
foe of the rattler and is able to kill
the poisonous snake by crushing it
in the manner of the boa constrict-
or.

May Call in Hogs
If the efforts of Commissioner
Byrd to free the territory of snakes
are not successful, hogs may be
called in to do the job, it was said
yesterday. A hog, the commis-
sioner pointed out, has never lost
a decision to a rattlesnake; the pig
is immune to rattlesnake bites and
looks upon the reptile as a delicacy.

The hog's plan of battle is said
to be quite simple. In attacking
the hog strolls amiably into the
coiled snake, ignores the strike,
places his feet on the snake, and
starts eating.

FARM BUREAU PICNIC NEXT THURSDAY

Amusing, Educational, So-
cial; Good Program
for Everyone

Farmers of Cook county are pic-
nicking Thursday, August 17, with
the Farm Bureau at Santa Fe Park
on the Des Plaines river, six miles
southwest of La Grange.

Agriculture, particularly organ-
ized agriculture, has more at the
present time for which to be thank-
ful than probably any time in all
history.

Other interests back thru the
years have sold the idea of some
assistance to industry out of which
grew the tariff. Assistance to labor
came in the immigration act. Now
agriculture, after a dozen years of
effort, has made itself heard and
the Agricultural Adjustment act
is the result.

The application of the Agricul-
tural Adjustment Act as it applies
to cotton in the south, and wheat,
milk and hogs and other products
in this section, is not an easy one.
Farmers then are going to be glad
to pull away from their labors and
enjoy the day, Thursday, pitching
quits, playing ball, eating picnic
dinners and viewing the results of
the young farmers' efforts in the
show of 4-H Club calves and other
products.

NRA Plan Aids Employees of Hagenbring Store

In accepting the NRA plan, Mr.
Hagenbring, of the Hagenbring 5c
to \$1 store at Arlington Heights,
entered wholeheartedly into the
plan and has cut down the hours of
his clerks and increased their
wages. His clerks will work only
48 hours a week hereafter and one
additional clerk will be hired for
extra work.

North State Road Property Owners Attention!

In view of the fact that the pro-
posed widening of State Road to
forty feet will necessarily eliminate
a number of trees between East-
man and Euclid Streets, you are in-
vited to meet with the Village
Board of Trustees on next Monday
evening, August 14th, 1933, at 8
o'clock p. m. in the Village hall to
discuss the project in detail and to
exchange views and assist your
trustees in determining a definite
course of action.

While all citizens will be wel-
come this matter is of immediate
interest to PROPERTY HOLDERS
on STATE ROAD particularly
those between Eastman and Euclid
Streets. Come out and learn the
authentic story about this new im-
provement.

Respectfully,
JULIUS D. FLENTIE,
President, Village of Arlington
Heights.

COUNTY BOARD ENTERTAINED AT REINBERG

Unusual Program and St.
Mary's Band Features at
Program Wednesday

President Whealan, of the Coun-
ty Board of Commissioners and
various members of that body were
guests of honor Wednesday eve-
ning at Camp Reinberg in Deer
Grove. The program started with
a band concert at five o'clock given
by St. Mary's training School
Band of Des Plaines. This was
followed by the dinner. Rain at
7:30 interrupted the outdoor pro-
gram and the activities were trans-
ferred to the assembly hall.

The honored guests from Chica-
go and the audience that had gath-
ered from nearby towns, soon re-
alized that an unusual program had
been prepared and included a num-
ber of star attractions—all the
work of the groups that are spend-
ing the present period at this coun-
ty camp.

Songs of welcome, displays of
camp activities, parade of national
groups and calisthenics and solo
and group numbers followed each
other in rapid succession. Many
of the numbers would have been a
credit to any Chicago theatre stage,
or the big circus. Boxing had its
share, but the big feature were the
tumbling pyramid acts. The pro-
gram was necessarily cut short on
account of the bedtime hour of the
children, but President Whealan
and Commissioner Mrs. Plumb,
each told of the importance of the
camp, its appreciation by the coun-
ty board and their hopes that there
could be more and larger camps
erected so that a greater number
of Chicago people could receive its
benefits. The mothers and girls
groups presented bouquets of wild
flowers to Mrs. Whealan.

The part of the program omitted
Wednesday evening will be given
this Friday night. As the program
will be held out of doors, there will
be plenty of room for hundreds of
visitors. Cars parked along the
roadway, can face the program and
there will be room inside of the
grounds for as many as desire to
come.

Supt. O'Carroll says, "We gave
27 numbers Wednesday night.
There still remain 22 numbers,
which are among the best. We
want the entire countryside to
come."

There will be only one more
white group this year.

Have Faith in National Recovery Act, Buy Cars

Two Palatine people had so much
faith in the recovery of business
that they have bought new cars.
Mr. Collignon of the Palatine Dairy
has purchased a new Ford truck.
He is adding one employee on his
milk route and doing everything
possible to meet the requirements
of the government.

Oscar Kurtz was so certain that
conditions are going to change that
he took his nest egg and purchased
a new Dodge car of Fred Dahm.

WEDDING PARTY HELD FOR COUNTY COMMISSIONER

A wedding party for County
Commissioner and Mrs. Homer J.
Byrd was held last Thursday night
at the Rand Tower. It was an in-
vitational affair in charge of Hor-
ace McCullen, Democratic district
leader and president of the village
of Glenview, and George Oleese,
forest preserve superintendent. Mr.
and Mrs. Byrd were given an elec-
tric refrigerator and a radio by
their friends. Music for dancing
which was well appreciated, was by
Sally and His Nighthawks. Re-
freshments were served.

TO COLLECT IN WHEELING & ELK GROVE

Collector Annen's Office
Hours Next Week Only
2nd Half 1931

A hurried notice was received by
the local tax collectors of Cook
county Wednesday night that they
will have authority to collect the
second installment of 1933 taxes
next week. The tax books will not
be sent out to them, and tax pay-
ers must bring to the local collec-
tor, their 1933 tax bill previously
received by them. The tax collec-
tor will have authority to pay the
amount collected to the various
taxing bodies, but he will have
only one week to act. On Sunday,
August 20, the collectors will be re-
quired to make their entries in the
tax books at the county treasurer's
office. The next day those that are

Red Wings Trim Bensenville Team

Whatever Bensenville did to the Arlington Red Wings is not known, but the Red Wings took them for an awful ride last Sunday by the one sided score of 20 to 7.

"Tommy" pitching for Bensenville, was helpless against the Red Wings, being hit as he was never hit before and finally gave up when Earhart took his place who finished the last two innings.

"Peanuts" Meyer on the hill for the Red Wings was going strong and with good support was never in danger or had much to worry about allowing only seven scattered hits.

Meyer shared the last three innings with Schaefer, who pitched the same good brand of ball allowing but two hits.

The Red Wings heavy artillery kept banging away all through the game with each player getting his share of hits and fattening the old batting average. Pitzner and Schulenburg with three hits apiece in three times at bat, Schaefer two hits in four times up, Dobbins four hits in six times up and Witt two hits in three times up were the leading hitters of the massacre.

Bensenville in the past have always given the Red Wings a run but came out this time finding the boys waiting and in true form.

On last Wednesday evening, Aug. 2, the Red Wings played three innings of a scheduled twilight game with Roselle Braves, the game being called on account of rain and darkness with neither team scoring. This game will be played off next Wednesday evening at the Red Wing Ball Park Aug. 16.

And now, fans, comes a big surprise, something really worth seeing and you can't afford to miss. Something you wanted to see, but never had the opportunity and here they will be right in your own backyard, something that has never been witnessed before in Arlington Heights for on Friday evening, Aug. 25, the Red Wings meet the "House of David" the men with the long hair and beards. This is advance notice, so don't forget the date. Details will be given later.

Next Sunday afternoon the Red Wings meet the Maywood, Ill., who will give the Red Wings plenty of competition. Game called at 3 p. m. sharp on the Red Wing diamond, 500 S. Highland avenue. Always a Red Wing Booster.

She was baptized in infancy and confirmed in the Christian faith at the age of 13 years, at the Evangelical church of Long Grove. Old-Fashioned Tea Roses

The old-fashioned Tea roses were popular in the days of our grandmothers, but have now largely disappeared from northern gardens. The real Tea rose was of Chinese origin, improved in France. The name was derived from the odor of the leaves, which resembled that of tea. In the middle of the last century, many of these roses were imported from France, but they proved too tender for our northeastern states. Many varieties are still grown in the South, where they are treasured for their beauty and fragrance.

CHRISTIAN SCIENCE CHURCHES

"Spirit" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 6, 1933.

The Golden Text was, "Teach me to do thy will; for thou art my God: thy spirit is good" (Psalm 143:10).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "But as it is written, Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him. But God hath revealed them unto us by his Spirit: for the Spirit searcheth all things, yea, the deep things of God" (1 Cor. 2:9, 10).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The only excuse for entertaining human opinions and rejecting Science of being is our mortal ignorance of Spirit—ignorance which yields only to the understanding of divine Science, the understanding by which we enter into the kingdom of Truth on earth and learn that Spirit is infinite and supreme" (p. 280).

Frozen desserts like this are no trick to make in an electric refrigerator. They're wonderfully inexpensive, too.

An electric refrigerator cuts other food bills way down by keeping all perishables healthfully fresh for days. No spoilage, no waste. And, of course, it supplies all the ice cubes you want.

The electricity that runs an electric refrigerator costs only 7¢ a day in the average home served by the Public Service Company of Northern Illinois. A real bargain, don't you think?

Dirt! Dirt! endless dirt!

Be rid of it all with clean automatic Gas Heat

To prove that every home can afford to heat with gas... we will install it at our expense and remove it at our expense, if you don't like it

GET rid of all dirt with gas heat? Certainly. How do we know you can? We asked thousands who use it. Their answer came—without hesitation—"Cleanliness, if nothing else, makes gas heat indispensable." They know from experience. They know that gas heat eliminates soot, dirt and grime from walls and curtains, from window sills, from corners, from furniture and furnishings, from under and over radiators and registers—from everywhere in the house from cellar to attic.

This is only one of the many, many reasons why you want gas heat. It saves days and nights of back-breaking coal shoveling... dirty hours of hauling ashes... the nuisance of chopping kindling... the anxiety of watching and waiting for heat to come up and dozens of other home-heating troubles.

Every home can afford it
You may say to all this—yes—that's all right for wealthy folks who can afford gas heat. That's where you're wrong. Because now through greatly lowered cost even the most modest home can afford gas heat.

To prove it—and we take the full burden of proof—we'll install it in your home without your making one cent of investment. Then you'll know from your own personal experience whether you can afford gas heat.

During the nine heating months of the first year you pay \$3.00 a month rental for the equipment in the average home. This charge will be included with your gas bill. And if for any reason during the first year you want it removed, we take it out and the rental charge stops immediately. Further, we replace your former heating equipment in the same or better condition than we found it. If you decide you want it, the rental applies on the purchase price.

Mail coupon today
A daring offer, you say. Yes Sir. No other fuel ever dared match it. An offer we do not hesitate to make because we know the great difference gas heat will make in the health and contentment of your family.

Today—mail the coupon at the right—for a new illustrated folder that shows you how to analyze your home-heating cost.

OBSERVER'S NOTES

List! Where the sounds of a summer's night
Come as varied as nature's page;
Caught in the shades of dim twilight
Ere the longings for sleep engage.
The barking dogs, the autos speed
Where are trains that roar and screech.
"Rules of the road," who there will heed
When the cops are out of reach?
The "we sma'" hours are almost sped
Where the pleasure chasers ride;
A cry "Some injured one is dead,"
When two speeding cars collide.
Over the darkness falls a hush;
A great owl rings a passing bell
When another answers from the bush.
"Who-hoo, who-hoo," and all is well.

Don't for one minute imagine in that short paragraph are enumerated all the sounds of a summer night. There is the crickets' constant drone in a soothing minor undertone. The children's complaint when called in from play, their bikes and kiddy cars, and the mothers off repeated, too oft unheeded call.

Not to mention the song of a murderous mosquito telling what he can do to you if you don't change your political tactics. I didn't mean "he" for was it Kipling told us "The female of the species is more deadly than the male"?

Neither did I mention airplanes, neighborhood radios or caterwaulings. O, it's nice and quiet in the country. After all, there are many pleasant sounds, cheery voices, church bells, and musical harmony to soothe the weary body and mind. What is the best thing in our town?

Good folks who drive the evil out; What is the worst folks talk about?

Failure to put evil to rout.

Of all the puzzling crazy ideas, planning to cut down more trees—the only attractive feature for which this town is noted. Why widen streets, have we not dearly experienced what our broad highways are bringing to us? Today we heard of another victim of the race track supporters. A poor widow who washes and works for her living. What have our broad thoroughfares brought to our right upbuilding or our gain?

Once more we plead "spare our glorious trees." They give dignity, beauty and are the most majestic feature of our town. They protect us from heat, they shield us from destructive winds. They comfort us in sorrow and companion our lonely hours. I love to lean against a tree and feel it is akin to me. O, brothers, spare our noble trees.

Here comes an August calendar telling us the Poppy is August's flower, yet our poppy petals fell o'er the walk long ago, "like raveled threads of crimson silk." So many flowers and fruits have forged ahead of their scheduled time. It may be so farmers and gardeners can get their produce out of the way in time to attend the Century of Progress.

Read the following about those who walk:
Every day you may behold
Scores of folks now walking.
Come to reduce, so I am told
And some are reduced to walking.
It is astonishing to note that many who are on relief lists don't try reducing their expenses by walking, and also it is equally astonishing to note some accumulating pounds of avoirdupois, do not walk to reduce the burden of such a weight to carry.

A bright little girl who must have heard some older folks discussing our public affairs said: "If you get water by pumping it out of the ground, you don't have to pay any water tax, but if you get it by turning a faucet, then you have to pay water tax." Wise little maiden, and they drained our

good wells and made us pay immense sums for it.

"Let every eye negotiate for itself, and trust no agent" (Shakespeare). Now that seems a bit strange coming from the Bard of Avon. In our time we have to trust everything to some agent or other. Now under this new code we know not what yet shall be. Even the buttons on our coats will no doubt be numbered. However, it's all right so long as the Eagle spreads his wings over us.

Everybody must realize this is not a dull time, but a time when one may observe many amazing things, many perplexing things, yet not feel free to discuss or write about. 'Tis a time of testing; a time when there are great ventures to be tried out, so we must, according to the long quoted text, "Sit still and see how the matter turneth." At any rate "wait."

Some of you wise people who speak a bit scornfully about the local paper, may some time feel as one of our friends says they did when "away down in Texas" when the home paper came to them. They had family and friends' letters, yet the home paper told news they were glad to hear, not room for in letters.

Rev. John Muir occupied the pulpit in absence of Dr. Kossack Sunday morning. Many here who remember his visits were glad to hear the stirring earnest sermon which he gave. Two who were members of the Fullerton Avenue Presbyterian church when Rev. Muir was there, were indeed glad to meet and hear him again, and to find that his spirit had lost none of its fervor in presenting God's truth nor his words none of their convincing power.

Funny it seems that people who have ground of their own or space for a garden offered by others say it doesn't pay to have a garden. Now when all vegetable prices are on the rise doesn't seem good to go into the garden and find all to supply your needs; beside the joy of helping them to grow and to be able to be in God's out of doors?

Out in the garden, what do we find, Air lines from heaven touching the mind; Ladders the Patriarch gave them name. Descending to him heaven's messengers came.

Out in the garden, what do I see? God's blue skies stirring over me; The door seems open, heaven so near. The voices of loved ones we seem to hear.

Out in the garden with plenty replete, The food for our bodies in measure complete; A cure for depression in luxury spread. To strengthen and build us in heart, hand and head.

Out in the garden, there we find As nuggets of gold thoughts storing the mind; Out in the garden, what can compare With the great inspiration that comes on the air.

You who are dreading the need of relief, Come to the garden, find cure for your grief; Out in the garden toil will uplift, The garden proves too, toil is God's gift.

One line more of space I must take, Into our garden creeps never a snake.

Never knew much about gardening in the old times. Have learned the joy of it since living in the city. It does amuse one to hear city dwellers make fun of the person who spent their childhood on a farm. Do you know what the Bible says: "Woe unto them when they set house against house until there is no place for them to be real folks

and grow.

Another pleasing feature about gardens and plant lovers is their desire to share. This was evident the other day as we passed one of our newer neighbors. Madame Ladas was out on the terrace and as we paused to admire her flowers, she hastened to bring us a sprig of a fragrant mint with a sprig of a lavender blossom. So whether Irish, German, Slovak or Greek, we are all brothers and one—in the garden.

Not to reminisce, do you any of you possibly remember "way back when" Dr. J. E. Best planted that maple tree now and for long the pride of his home? Still a majestic monument to his memory? Or do any of you chance to recall when those grand old trees were planted on the place known as "The Evergreens" by the loving hands of Mrs. James Dunton, or can any recall the planting of the splendid maples on the old Perry place, or in front of the Berbecker home? When such trees are removed they leave a desert void as when an old friend passes from our home. The Bible tells us "The tree is the life of man." Spare our trees.

Always loyal to our President and those endeavoring to steer the good ship of state. It is with deep regret we hear the edict go out to use "propaganda" to bring about certain proposed measures. Propaganda "such as was used in time of that horrible war." We used to think policy was a false, a deceitful thing to broadcast, even worse seems propaganda.

What we need to curb the spirit of aggression and the poison of hate only the Spirit of Christ can sweep out of our country. The poison propaganda will all too swiftly lead on to another war. If Christian people do not more closely follow the example of the Master and root out "propaganda" and every false measure that causes nation to rise up against nation. O, let us learn the true spirit of Christianity and overcome hatred and prejudice which all too surely lead on to war.

The biggest air ship doing space is just our good old mother earth; Where you and I have had a place, And kept on riding since our birth.

Still night and day she speeds along. Unlike all other air crafts new She keeps her bearing safely, strong.

Nor flops, nor falls—as others do. No passenger can do a thing About her sails or steering gear; We know it's on the proper swing, By the star stations passed each year.

To pay his passage each must work. To keep the ship in order, clean; If any stir up rows, or shirk, A sad disorder soon is seen.

Dr. Koester Sails for Berlin to take Special Medical Study

Dr. Louise Koester, Mount Prospect physician is leaving this week-end for a trip to Europe to spend a few weeks in special study in the University of Berlin on Post-graduate work on Internal Medicine. She will leave from New York on the steamship Bremen, on Wednesday, making one of the fast crossings that this ship is noted for. After landing in Germany she will spend a few days in Hanover, and will go on to Berlin to take up the studies in the University.

Dr. Koester leaves her extensive practice in the hands of an assistant, who will occupy her offices on Owen street and will take care of all calls. Her plans at present will bring her back to the Village the last of September.

Canada Has Most R. R. Mileage
Canada can boast of more railroad mileage in proportion to the population than any other country in the world. There is one mile of track for every twenty-three persons.

It matters not about the grade Of work on deck or in the hold Of cabin or upon the bridge, If it's well done it counts for gold.

Though steadily our old ship swings The greedy shirks and parasites; Claiming to be "Divine Right Kings" Have put her in a fearful plight.

On our ship Earth 'tis sad today, Where wildly warring foes engage, And war and labor fall away, Before the opposing bands of rage.

Laborers, who with hand and brain, Still work to keep the old ship trim; Pray the great Captain to restrain And make these shirkers work for him.

Elinore Crisler Haynes.

GOODYEAR WILL ADD TO POWER EQUIPMENT

During the next few months, Goodyear will spend more than a half million dollars in purchase of new power plant equipment and in construction of a new power plant building.

The building itself, of conventional brick-steel construction, will cost approximately \$20,000. It will house a single large boiler, capable of generating 300,000 pounds of steam per hour at a pressure of 800 pounds per square inch and a temperature of 740 degrees F.

Coal will be used as fuel after being pulverized in a ball-type mill. An interesting feature is the fact that all ashes remain in a liquid state in the bottom of the boiler and are drawn off at intervals in much the same manner as the molten metal from a blast furnace. The molten ashes are cooled, solidified and then broken up by action of a water spray, after which they are taken by conveyor to cars to be hauled away. About \$25,000 will be spent on the ash handling equipment.

Water softening equipment, to remove any scale forming ingredients from water for boiler use, will cost \$25,000.

Approximately \$30,000 is to be spent on control equipment for synchronizing the amount of water, fuel and air that is fed to the boiler. It is estimated the piping installation will amount to \$30,000.

Steam generated by the boiler will be conveyed to a new turbo-generating unit, costing \$140,000, contract for which was recently awarded. The unit has a capacity of 10,000 kilowatts, generating at 2,300 volts.

The unit is known as a "high back pressure extraction type turbine" and will exhaust steam into a 100-pound factory steam main, the exhaust steam being utilized for heating, curing, etc. It will also extract steam at 200 pounds pressure to be used to generate electric current on low pressure turbo-generating units already in use.

Orders Tax Cut; But Few Benefit

Cook County Judge Jarecki rules that the 1934 tax levy was illegal and orders a cut of 18 cents on each \$100 of valuation. Only members of one protesting organization will benefit, that being the law and it being too late for others to object. He also says he believes the 1931 levy was illegally excessive and will pass on that next month. All of which may help to explain why the people of Cook

county refuse to pay taxes to the political machine.

Officials Promote Local Collection 2nd Installment

The local, or township collectors of Cook county have been authorized by County Collector Joseph B. McDonough to collect the last half of the 1931 tax up to and including August 19, this year. At the same time they are authorized to make distribution of the moneys they collect during this period to the taxing bodies for which they were collected.

County Treasurer McDonough worked out the plan as a practical solution to the problems arising out of the new law which authorized a two payment plan of taxes this year. The law was silent on the matter on the return of the collections to the local collectors after they had been turned over to the county treasurer for the usual audit after the first half of the taxes had been collected. No provision was made for the local collectors being given an opportunity to collect the second half.

The Suburban Area and Country Towns Association through their secretary, Jacob E. Dittus of Maywood, and a representative group of officials of the country towns, presented the matter to the County Board of Commissioners Thursday at the County building in Chicago. The consensus was that every convenience for the taxpayer was paramount. Homer J. Byrd of Arlington Heights, member of the board, presented the matter to the board and arranged for a conference with the county town officials. At this meeting with the country towns largely represented the facts in the case were presented by Secretary Dittus. Ed. McCabe, representing County Treasurer McDonough, was present and the county board concurred in the suggestion that the matter could be arranged by County Treasurer McDonough through a conference with Suburban Area officials on Friday.

The Suburban Area officials commended County Treasurer McDonough for his suggestions and also County Commissioners Mrs. Edward J. Fleming of Evanston and George A. Miller of Oak Park for their support of the request.

"The only thing that remains is for the taxpayers to demonstrate their appreciation by coming forward to pay their taxes before August 19, the last day on which the taxes can be collected locally. By doing this they will expedite the distribution of the funds so badly needed by the local taxing bodies in order to carry on the services that are now being rendered in the local communities," said Secretary Dittus, after the proposed plan was adopted.

Taxpayers will generally recognize this as another service which has been brought about through the Suburban Area and Country Towns Association.

Mrs. Lucille Dix Passed On; Active For V.F.W.; O.E.S.

Mrs. Lucille Dix (nee Niemeyer) of Arlington Heights, passed away Thursday, Aug. 3, at 5:30 p. m. at the home of her sister and brother-in-law, Mr. and Mrs. Otto Bolte. Funeral services were at the home of her brother and sister-in-law, Mr. and Mrs. William B. Niemeyer, 403 N. State road, to the First Presbyterian church at 2 o'clock. Burial was in Waldheim cemetery in Forest Park, Mr. Walter Karstens in charge of funeral arrangements.

Lucille Niemeyer was born Sept. 24, 1890, in Chicago, the daughter of Henry Niemeyer, who was born in Hessen, Germany, and Margaret nee Hennemann, who was born in Rodath, Germany. Barrymore Stars in "Looking Forward" at Arlington Theatre

The spirit of courage and enthusiasm which President Roosevelt addressed in his inauguration address finds dramatic expression in Lionel Barrymore's newest starring vehicle, "Looking Forward," which comes Tuesday to the Arlington Theatre as a new production from Metro-Goldwyn-Mayer-Cosmopolitan who recently produced the sensational "Gabriel Over the White House."

Sponsored by President
Dedicated to the hopeful attitude exemplified by the President, the film employs the same title of "Looking Forward" which he used for his best-selling book, although the action of the motion-picture is not based on the Roosevelt work. The following sentence, however, from the book is used as the screen play's foreword:

"We need enthusiasm, imagination and ability to face the facts—we need the courage of the young."

The picture, which deals with the lives of two business men, is unique in respect to its handling of two stories in one. The life of a millionaire department-store owner whose wife deserts him when he faces financial ruin is counterbalanced with the story of the humble employee who likewise is baffled by his inability to meet his payments and keep his home together, but whose family prove their loyalty when he most needs it.

"Looking Forward" is based on the C. L. Anthony stage play, "Service." The picture was directed by Clarence Brown, who has produced most of the Joan Crawford and Greta Garbo successes. It is his first production since "The Son-Daughter."

Rulings on Sales Tax

Beverage retailers, and other dealers who sell merchandise in containers, at retail, are not required to pay the two per cent occupational tax on deposits made by patrons for the return of containers, J. M. Braude, assistant to Director Joseph J. Rice of the Department of Finance announces. "The sellers' gross receipts are taxable only for the sale of the property and the value of the containers is not to be included, inasmuch as no title transfers to the purchasers," said Mr. Braude.

Retailers who sell tangible personal property on the installment plan pay the two per cent occupational tax on proceeds from such sales only as they are received, according to an interpretation of the law.

Financing charges are of a service nature, but must be itemized separately if dealers desire to avoid the possibility of paying tax on their receipts from this source.

Coal dealers selling at retail are not required to pay the two per cent tax on delivery and unloading services, provided those services are itemized separately.

Livestock and poultry producers are not required to pay the tax on feed purchased for feeding stock for market. However, if the feed is given to livestock or poultry that is not marketed, then the tax applies when the feed is purchased, and must be paid by the seller of the feed.

WHEELING NEWS

The Sixth Annual Wheeling Day celebration last Saturday afternoon and evening proved as successful as any of former years, especially so in proportion to the straitened finances of the present. The weather proved quite ideal, which helped much in bringing together the large crowd, which gathered on the grounds, especially during the evening hour. Two band concerts of one hour each, one in the afternoon and the other in the evening by the combined Northbrook and Wheeling school bands were very enjoyable. Music for the dancing was furnished by Don Bush and his orchestra. The various games and raffles spread about the grounds, were kept busy during a long evening. As usual the corn game was a favorite and drew a large and steady crowd. Refreshment stands were kept busy with a continuous stream of customers from 8 p. m. to well past midnight. The coolness of the evening made "hot dogs" popular and about 175 pounds were consumed during the course of the evening.

An auto accident in which several people were injured occurred on Dundee road at the Wheeling Day grounds when a motorist traveling on Dundee road struck a car pulling away from the grounds, in an attempt to avoid a car backing from another driveway. Mrs. Kristman of the Peony Farm on Dundee road, was the most injured receiving a severe gash in the head on being thrown into the mirror of the car. She was removed to the Wheeling hospital where it was found necessary to put in several stitches. Mrs. Sophia Vercana and daughter, Rosana, of Chicago, also received minor injuries and were cared for at the hospital.

The Wm. Madsen family of Chicago have moved into the John Wick residence on Milwaukee avenue, the Wicks having moved into their flat recently vacated by the Nielsens.

Mrs. C. Birk with her three grandchildren, Robert, Virginia and William Pieper, are spending their vacation here.

Mr. Conrad Reeb returned home Sunday evening after spending six

weeks with his daughter in Arizona. He assisted her in caring for her gas station while there. The Wheeling baseball team defeated Long Grove 9-6 in a game played here on Sunday. This makes a total of 10 wins and 3 losses for Wheeling team so far this season.

The John Wick family attended a picnic given by the Old Time Pleasure club on the John Haggie grounds at Deerfield, Sunday.

Presbyterian Church
No worship services of the congregation will be held the next two Sundays, Aug. 13 and 20. Services will be held as usual on Sunday, Aug. 27.
Sunday church school will continue throughout the month at the usual hour of 9:30 o'clock a. m. Members of the congregation are invited to come and worship with the junior membership of the church, during the absence of the pastor.

Mamoulia Selects Schubert Melody For Dietrich Song

One of Franz Schubert's most beautiful songs is sung by Marlene Dietrich in her new Paramount picture, "The Song of Songs," which is now playing at the Oriental.
The song, "Hedge Roses," was chosen by Rouben Mamoulia, the director of the picture, because its charm and simplicity harmonize so effectively with the mood of Miss Dietrich's characterization of an innocent German country girl.
In addition to "Hedge Roses," Miss Dietrich also sings "Johnny," a rhythmic jazz song which created a sensation in Germany when she sang it several years ago.
"The Song of Songs," adapted from Hermann Sudermann's literary classic, presents Miss Dietrich as a young girl who suffers in her search for an ideal love.

Hail the Good Old Pipe
"Good tobacco, smoked in a pipe, and hard work are responsible for my longevity," explained a South Carolina woman on her one hundredth birthday.

WHEAT QUOTA FOR COUNTY IS SET AT 80,460 BUSHELS

Julius Flentie, president of the village of Arlington Heights, Albert Landmeier of Elk Grove and Edw. Stumpf of Ontarioville are to act as the northern half of the Cook county committee on the wheat acreage allotment program under the Agricultural Adjustment Act, assisting Farm Adviser O. G. Barrett, who is the Cook County Wheat Administrator. An equal number will be functioning in the south half of the county with Assistant Farm Adviser M. E. Tascher.

Forms for contracts between the Secretary of Agriculture and individual farmers were being printed in Washington this week.

How Figured
Cook county rates an allotment of 80,460 bushels of wheat under the agricultural adjustment administration's plan for wheat production adjustment, according to word received from R. R. Huddelson, acting state manager in the extension service of the College of Agriculture, University of Illinois. The allotment is approximately 54 per cent of the previously announced five-year average production of 149,000 bushels for the county. This is the percentage of the total national wheat crop which is consumed domestically as human food. This allotment applies first to the 1933-34 wheat crop, not yet sown.

Upon the basis of these official allotment figures, cash compensations available to Cook county farmers for retiring acreage from wheat production will total approximately \$25,000, it is estimated by Farm Adviser Barrett. The bushel rate for the compensation payments has not yet been set, but it probably will be around 28 cents a bushel, he reported. Two-thirds of the compensation payment to co-operating growers will be paid this fall, and the remainder next spring after satisfactory proof of acreage reduction.

Premium on Cooperation
The total amount of the compensation payments which will come to the farmer in the form of ready cash will depend upon the number of wheat growers who take advantage of the opportunity to participate in the wheat program, it was pointed out.

Division of the county allotment among individual wheat growers will be left to the county association now being formed, it was announced. Each farmer's allotment will be based upon his production for the past three years, 1930, 1931 and 1932, and not upon the five-year average as in the case of the county allotment. The thing for farmers to do now is to get certificates from threshermen of the amount of wheat threshed for the years 1930, 1931 and 1932 or certificates from elevator managers for amounts of wheat sold, it was suggested.

Details of the plan will be explained to all growers of the county, explained Farm Adviser Barrett, as progress is made in bringing the plan into operation.

Finally, growers who decide to take advantage of the cash payment and cooperate in the plan sign a contract with the government to reduce their wheat acreage in 1934 and 1935. This reduction has not yet been determined, but it will not be more than 20 per cent of the farmer's average seeded acreage and may be less.

Bonds to be Issued By Home Owners' Loan Corporation

The Illinois state manager of the Home Owners' Loan Corporation, W. G. Donne, explains the manner in which this government sponsored relief organization will issue bonds in exchange for existing distress mortgages, and the collateral upon which such bonds will be predicated. These bonds, maturing within 18 years, will be used in exchange for mortgages against distress homes to the amount of 80 per cent of present day valuations at the maximum, as determined by the corporation's appraisers.

These bonds will be secured or collateralized as follows: (1) 10% of the total authorized issue will be subscribed in cash by the United States Government, two hundred million dollars being the amount of cash so subscribed as against a maximum bond issue of two billion dollars. (2) The balance of the collateral will be the mortgages which the corporation will make. These will be made on the basis of 80% of present valuations of some property.
